

JOIN THE CHAMBER TODAY!

About the Chamber

Our membership consists of businesses, corporations, non-profits, and individuals from Kemmerer, Diamondville, and Opal. We have three main purposes as the Chamber of Commerce

We advocate as group on behalf of all local businesses. This is related to working with governments, new tax laws, or any other issues facing our community businesses.

We help businesses receive the tools necessary to grow and develop in the community. This includes group advertising and promotion.

We will promote local business by helping beautify the local downtown areas, encouraging tourism, and hosting events in business districts to bring people to the area. The chamber manages the visitor's center for the area.
